## Mark 2000 Universal Specifications:

- Construction: durable, corrosion resistant painted metal frame
- Motor: enclosed, heavy duty fan cooled 115 volt, 60 hz, UL CSA approved
- Unit: Entela & CE marked approval, for North American and European usage standards  
Can be equipped to meet all electrical standards

- Height- 39"
- Width- 21"
- Length- 24"
- Weight- 88 :LBS
- Casters rear - 5"
- Casters front - 2"
- Crushing capacity - 60 4ft lamps or 30 8ft lamps before replacing bag

-Particle/carbon filter - 1200 4ft crushed lamps before replacing

Crushing capacity - 5280 of CFL bulbs .6mm in diameter before changing all filters.  
Auto shut down when bag reaches the set weight of 50 Lbs before replacing the bag.

- Mercury/Hepa cartridges - (2) 1200 4ft crushed lamps capacity before replacing

- Bag- 3.5ml poly bag 34x40

**- Revolutionary designed looped filtration system completely enclosed, which insures operator safety from mercury exposure**

- Built in scale weight sensor switch which shuts the unit off when the bag has reached its 60 lamp capacity weight level

- Heavy duty beater assembly which can withstand high volume crushing
- Luminated weight sensor & off/on light switch indicators.

-Patent: USA patents: 5,660,338 /5,769,336 Canadian, Japan,& European patent pending
